Electric Car Beats The High Cost Of GAS

canadian electric vehicles . Of Errington BC has developed a pair of easy to install kits, which convert Geo Metro cars and GM S-10 trucks to battery power. Converted vehicles cost just pennies a kilometer to recharge with a range of up to 100 Km. Canadian Electric Vehicles has been converting vehicles to non polluting battery power since 1990 and has seen a dramatic increase in public interest with the recent fuel price increases.
