CEV Delivers First Might-E Truck

canadian electric vehicles, (1995), of Errington BC delivered its first "Might-E truck" to Correctional Services Canada on Friday. The electric powered $\frac{3}{4}$ ton truck will be used as a carpenters van inside the prison grounds. Might-E truck is a new, battery powered mid size truck that has been under development for the past four years. With a payload of 2000lbs and a towing capacity of 15,000kg it has already attracted much attention, including various Canadian and US government agencies. **canadian electric vehicles** also converts passenger cars & trucks to electric power and sells kits for customers to convert their own vehicles.
